

ROAD REVIEW MEETING

The Town Board met on Monday, June 20th, 2022 at 7:00 AM to formulate a list of roads the Town may select for sealcoating. Also any other work that would be required in maintenance of town roads. Members present Chairman Johnson, Supervisors, Mark Heimbecher and Pat Olson. Also Keith Massart.

Review of Town Roads. The board reviewed the current state of the town roads and found the following maintenance items to consider:

- Complete the repair of the newly installed culvert on Center with a small blacktop patch. This will be required before the road can be considered for sealcoating.
- Hornspier area, SLMD Road will require grading and a few spot loads of gravel.

After doing a visual review of all roads that are potential for sealcoating, the Town Board identified the following:

- Center Road from County S to Shiloh
- Dane Road from County S to Shiloh
- Knutson Road, Shiloh east to end
- Maplewood Road, Shiloh east to end
- Carnot Road, County S east to end.

The Chairman will be meeting with Scott Construction to discuss options and pricing on the above roads. A final determination will be made at the July meeting.

Adjourn: The review and business was completed at 8:05 AM

Myron Johnson, Town Chairman
